

LEARNING TO DO **FFA**

DOING TO LEARN

EARNING TO LIVE

LIVING TO SERVE

This month's celebration is the FFA State Convention, which took place from March 16th to 19th. I represented the district as regional star administrator. I did not win the state title. However, the experience was amazing because I spent a few days with our students and their FFA advisor. Our outstanding students represent our district with dignity, respect, and confidence. The days were long and filled with scheduled activities and sessions. However, besides complaining about sore feet, students stayed positive and kept going. The convention fortified my belief that the FFA organization builds character and leadership qualities that students need to succeed in whatever endeavor they choose to pursue.
