Isolation:
- Stay home for at least 5 days.
- Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.
- If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- If fever is present, isolation must continue until fever resolves for 24 hours without the use of fever-reducing medications.
- If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- If a Home Test Kit was used, it is recommended to confirm with a lab result.
- Antigen test preferred.

With symptoms:
- Isolation until the following requirements have been met:
  - 24 hours* (1 day) with no fever (without the use of fever-reducing medicine) and
  - Symptoms have improved
  *Employee B should have a negative test for SARS-CoV-2.
- A healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR
  - A healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coccidioides virus), OR
  - At least 10 days have passed since symptom onset.

If Person C is asymptomatic and able to completely separate from Person A in household (this means no contact, no time together in the same room, and no sharing of any spaces, such as same bathroom or bedroom):
- Upon separation, Person C follows the guidance for Person D.

If Person C is asymptomatic and unable to completely separate from Person A in household:
- At the end of Person A’s isolation period, Person C follows the quarantine guidance for Person D.

*If person C becomes symptomatic, contact covid@report@fcoe.org or (559) 497-3889 for next steps.

Quarantine immediately for 5 days** following date of last exposure:
- Stay home for or at least 5 days after your last date of exposure.
- Complete a COVID-19 test on day 5.
- Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.
- If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.
- If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- Antigen test preferred.

** A person who has been confirmed COVID-19 positive within the last 90 days is exempt from quarantine.

For more information on COVID-19, please refer to the Fresno County Department of Public Health website or call at 559-600-3332.

Updated 01/21/2022
LATON Students COVID-19 Illness and Quarantine Guidelines

Report all cases to the School Nurse, Petra Castaneda at 922-4006 or 922-4111 or Tammy Alves at 922-4024

**STUDENT A**
Any student who has tested positive for COVID-19, regardless of vaccination status, previous infection, or lack of symptoms

Isolation:
- Stay home for at least 5 days.
- Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.
- If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.
- If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- Antigen test preferred.

**STUDENT B**
Any student who is solely symptomatic or who has tested for COVID-19 due to symptoms and waiting for lab results

Isolation until the following requirements have been met:
- 24 hours* (1 day) with no fever (without the use of fever-reducing medicine) and
- Symptoms have improved

*Student B should have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.

**STUDENT C**
Any student who believes they have been a close contact with a COVID-19 positive person at home, school, or in the community

If Student C:
- is or becomes symptomatic, regardless of vaccination status, refer to Student B.
- is asymptomatic, regardless of vaccination status, Student C may return to school.

*Testing is recommended. If Student C receives a negative test result, they may return to school. If Student C receives a positive test result, see Student A.
