

# Laton Employees COVID-19 Illness and Quarantine Guidelines

Report all cases by phone to Petra Castaneda at 922-4111 or 922-4006 or Tammy Alves at 922-4024

## PERSON A

Any person who has tested positive for COVID-19 regardless of vaccination status, previous infection, or lack of symptoms

### Isolation:

- ✓ Stay home for at least 5 days.
- ✓ Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.
- ✓ If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- ✓ If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.
- ✓ If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- ✓ Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- ✓ If a Home Test Kit was used, it is recommended to confirm with a lab result.
- ✓ Antigen test preferred.

## PERSON B

Any person who is solely symptomatic or who has tested for COVID-19 due to symptoms and waiting for lab results

### With symptoms:

Isolation until the following requirements have been met:

- ✓ 24 hours\* (1 day) with no fever (without the use of fever-reducing medicine) **and**
- ✓ [Symptoms](#) have improved

\***Employee B** should have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.

## PERSON C

Any unvaccinated person who lives in the same household as Person A

If Person C is asymptomatic and able to completely separate from Person A in household (this means no contact, no time together in the same room, and no sharing of any spaces, such as same bathroom or bedroom):

- ✓ Upon separation, Person C follows the guidance for Person D.

If Person C is asymptomatic and unable to completely separate from Person A in household:

- ✓ At the end of Person A's isolation period, Person C follows the quarantine guidance for Person D.

\*If person C becomes symptomatic, contact [covid19report@fcoe.org](mailto:covid19report@fcoe.org) or (559) 497-3889 for next steps.

## PERSON D

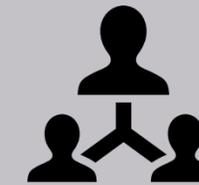

Any unvaccinated or vaccinated and booster-eligible person who has not yet received their booster dose with close contact to Person A (>15 min cumulative per day), < 6 feet)

**Quarantine immediately for 5 days\*\* following date of last exposure**

- ✓ Stay home for or at least 5 days after your last date of exposure.
- ✓ Complete a COVID-19 test on day 5.
- ✓ Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.
- ✓ If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- ✓ If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.
- ✓ If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- ✓ Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- ✓ Antigen test preferred.

\*\* A person who has been confirmed COVID-19 positive within the last 90 days is exempt from quarantining.

## PERSON E

Any unvaccinated person who has had exposure to Person B, C OR D

**NO QUARANTINE OR ACTION REQUIRED unless:**

**Person B, C or Person D** develops symptoms OR tests positive, and **Person E** had contact within 10 days (timeline should start 2 days before **Person C** or **Person D** develops symptoms) **then:**

- ✓ Continue to self-certify your health on a daily basis.
- ✓ Contact [covid19report@fcoe.org](mailto:covid19report@fcoe.org) or (559) 497-3889 with questions regarding timing and exposure

## PERSON F

Any person who is vaccinated with booster dose or vaccinated, and not yet booster-eligible and has been exposed to COVID-19

- ✓ Employee may continue to report to work.
- ✓ Recommend test on day 5.
- ✓ Wear a well-fitting mask around others for 10 days, especially in indoor settings.
- ✓ If COVID-19 test results are positive, follow isolation recommendations for Person A.
- ✓ If symptoms develop, test and stay home.

# LATON Students COVID-19 Illness and Quarantine Guidelines

Report all cases to the School Nurse, Petra Castaneda at 922-4006 or 922-4111 or Tammy Alves at 922-4024

## STUDENT A

Any student who has tested positive for COVID-19, regardless of vaccination status, previous infection, or lack of symptoms

### Isolation:

- ✓ Stay home for at least 5 days.
- ✓ Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.
- ✓ If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- ✓ If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.
- ✓ If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- ✓ Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- ✓ Antigen test preferred.

## STUDENT B

Any student who is solely symptomatic or who has tested for COVID-19 due to symptoms and waiting for lab results

### With symptoms:

Isolation until the following requirements have been met:

- ✓ 24 hours\* (1 day) with no fever (without the use of fever-reducing medicine) **and**
- ✓ [Symptoms](#) have improved

\*Student B should have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR

a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.

## STUDENT C

Any student who believes they have been a close contact with a COVID-19 positive person at home, school, or in the community

### If Student C:

- ✓ is or becomes symptomatic, regardless of vaccination status, refer to **Student B**.
- ✓ Is asymptomatic, regardless of vaccination status, Student **may return to school**.

\*Testing is recommended. If Student C receives a negative test result, they may return to school. If Student C receives a positive test result, see Student A.
